COMMENTS

- ¹ See Broadcast Localism, FCC 07-218, released January 24, 2008 at para. 1.
² Id. at para. 2.

Also please find as attachment B a sample of the letters from our community leaders and members of our audience discussing some of our local efforts.

4. We strongly urge the FCC to reject the conclusion that stations are not serving their local communities and reject the new proposals contained in the rulemaking, including, but not limited to, Enhanced Disclosure, posting public files on the internet, community advisory boards, 24/7 physical presence at each broadcast facility, reintroduction of renewal processing guidelines and main studio rule revision.

Respectfully submitted,

Tracy F. Connors
